

Open position: Laboratory technician

Haelixa is a multi-award winning, fast-paced ETH Zürich spin-off providing DNA-based solutions for reliable traceability of products and raw materials across their supply chains. By fostering the development and market deployment of next generation DNA markers, we contribute to greater supply chain transparency and sustainability. We are currently looking for a new team member to join us on our journey!

Schedule: Full-time from Feb 1st 2020 or other mutually agreed date.

Location: Zurich, Switzerland

Your tasks:

- Develop project plans based on the project scope, deadlines, and product requirements.
- Manufacture DNA-based tracers and perform chemical quality control.
- Develop and optimize operating procedures, protocols, standardize assays
- Implement and read-out Haelixa tracers in various products.
- Help Haelixa team in delivering a great product!

Requirements:

- A degree (EFZ, HFP, BSc) in Chemistry, Chemical Engineering, Materials Science, or related technical field or combination of education and experience
- Experience in working in a laboratory (chemistry/biology)
- Comfortable in working independently
- Passionate about working in a start-up
- Strong team player attributes
- Flexibility and energy to work in a high-speed and high-intensity work environment
-
- As we plan to build our SOLA team (<https://asvz.ch/event/412-sola-stafette>) in 2021, the faster you run, the better!

Send your CV by email: jobs@haelixa.com
We look forward to your application!
